- Ranks among the top 100 Best College Buys by Institutional Research and Evaluation
- Recognized as an outstanding university for Hispanic students by Hispanic Outlook in Higher Education magazine
- Leads the nation in Bachelor’s degrees awarded to Native Americans
- Ranks first in the state in international exchange agreements

The Bridge to the Doctorate program is a nationwide program with participating universities from coast to coast. The program began in Oklahoma in 2004 with Cohort I at OSU and has continued successfully. Each year, BD programs are awarded to eligible participating LSAMP institutions. Although each university has different requirements and benefits, they are similar in order to meet NSF goals. Each Fellow is expected to complete the Ph.D. and is given support for up to five years provided they make satisfactory progress towards the degree. If you have questions regarding positions available, please do not hesitate to contact any BD program across the nation.
OK-LSAMP
Bridge to the Doctorate
A Pathway to the Next Level

Created by the Oklahoma Territorial Legislature in 1890, the University of Oklahoma is a doctoral degree-granting research university serving the educational, cultural, economic, and health-care needs of the state, region and nation.

The Norman campus serves as home to all of the university’s academic programs except health-related fields. Both the Norman and Health Sciences Center colleges offer programs at the Schusterman Center, the site of OU-Tulsa. The OU Health Sciences Center, which is located in Oklahoma City, is one of only four comprehensive academic health centers in the nation with seven professional colleges.

OU enrolls more than 30,000 students, has more than 2,600 full-time faculty members, and has 20 colleges offering 163 majors at the baccalaureate level, 157 majors at the master’s level, 81 majors at the doctoral level, 28 majors at the doctoral professional level, and 28 graduate certificates. The university’s annual operating budget is $1.5 billion. The University of Oklahoma is an equal opportunity institution. (6/20/12)
